ANNUAL REPORT
ON THE
ADMINISTRATION OF THE TONK STATE
FOR THE YEAR 1312 FASLI.

CHAPTER I.

GENERAL AND POLITICAL.

The area of this State is 26,39,913 bighas according to survey equivalent to 16,49,946 acres, and the population according to the Census of 1901 is 2,73,201. General and Political.

The net income of the State (according to the average of the past 5 years) is Rs. 8,95,698. The State pays no tribute.

The Chief's full name and title is :—

Amin-ud-dowla Wazir-ul-mulk Nawab Hafiz Mohamed Ibrahim Ali Khan Bahadur Sowalt Jang G. C. I. E. *Sir*
^

His age is 56 years and he is a Bonerwal Pathan by tribe. His first born son and heir-apparent is Sahibzada Mohamed Abdul Hafiz Khan who has been married in his own family to the daughter of his uncle.

No head of administration or any other distinguished personage visited the State during the year under report. The transfer of Major C. H. Pritchard took place during the year to Sehore, and Captain A. B. Drummond was appointed as Political Agent, Haroti and Tonk, in his place and took over charge of the Revenue Department. He made short tours in the Tonk and Aligarh parganas, but had no time to visit the other parganas of the State. Moulvi Ahmad Shafi, late Revenue Member, made a tour in the Tonk and Aligarh parganas and seeing the condition of the crops recommended early in 1313 Fasli arrangements for the sowing of Ranjka and the excavation of wells. In January 1905, Colonel Jacob and Mr. Manners Smith, officers of the Irrigation Department inspected the schemes of the Tonk pargana.

The health of his Highness the Nawab has been good during the year. Sahibzada Mohamed Saddiq Khan Bhadur, Dilerjung, Member of Council, Home Department was obliged to resign, on account of illness and Sahibzada Mohamad Abdul Rahim Khan, Bahadur, Muzzafferjung was appointed from 8th August 1905, in his place. Moulvi Ahmad Shafi, the late Revenue member died in October 1905. The high State officials are entered in Statement I.

CHAPTER II.

ADMINISTRATION OF THE LAND.

Administra-
tion of the
land.

The rates fixed by Mr. A. L. P. Tucker, Political Agent, Haroti and Tonk, at the time of revision of Colonel Pears' settlement in 1305 Fasli (1897—98 A. D.) are still in force in the State. The State Land Revenue is realized according to those rates, and no new rates have been introduced nor has any revised settlement been made. No complaints about this settlement have been received from the ryots.

The total area of irrigated and un-irrigated waste lands cultivated during the year is about 19,000 bighas, bringing a revenue of Rs. 5,596.

Four Jagir villages were reverted to the State during the year under report, in the Tonk pargana, and the Jagirholders were given cash allowances.

The four villages are:—

(1) Sewai, (2) Balapura, (3) Islampura of the jagir of Sahibzada Amanatulla Khan, and the village (4) Wilaitipura of the jagir of Habibullah Khan Wilaiti.

During the year, a boundary dispute between Karwaria village in Aligarh pargana of Tonk and Godha of Indergarh in Kotah, was settled.

Taccavi advances to the amount of Rs. 6,270-13-6 were made during the year.

During 1311 Fasli the settlement demand was estimated at Rs. 8,14,931-9-11, out of which Rs. 6,96,341-1-2, were realized leaving in arrears Rs. 1,18,590-8-9. During 1312 Fasli, the settlement demands was estimated at about Rs. 8,08,238-11-3, but only Rs. 6,74,136-2-3 were realized leaving a balance of Rs. 1,34,102-9-0, outstanding against the zamindars. The cause of a greater amount remaining in arrears in 1312 Fasli, than in 1311 Fasli, was the failure of the rains and consequent anxiety of the people. Therefore under orders of the Durbar severity was not permitted in the collection of revenue, in order to encourage the people.

The area cultivated in 1311 Fasli was 5,20,138 bighas, 7 biswas against 5,09,142 bighas, 8 biswas in 1312 Fasli *i. e.* 10,995 bighas, 19 biswas less. No suspensions or remissions of the revenue have been made, in the year under report.

CHAPTER III.

PROTECTION.

Legislation.

Vide Appendix II.—No new legislation was introduced during the year under report. Legislation.

Military Force.

Vide Appendix III.—The strength of the forces in the state during the year was 1,780, no increase or decrease was effected. Military Force.

The sepoy of the Hasni Battalion have 773 muzzle loading guns and the officers of the same battalion possess 14 swords. The remaining sepoy and horsemen possess their own weapons which are of little use. The forces in this State are employed on watch and ward duties at the Sadar as well as in the Parganas. They know whatever drill is necessary and are trained to perform duties in connection with watch and escort etc. The cost of the military forces in the year under report was Rs. 1,66,354 which is the same as in the previous year.

Working of Police.

The Police force in the State numbers 885. The Police at Nimbahera and Sironj are armed with muzzle loading guns and swords and are uniformed. The Police in the capital as well as in the remaining parganas are armed with capped guns, match locks, swords and batons; and wear uniforms. But the arms are not in good condition, and therefore they are unable to cope with robber gangs with effect. The Police are fairly efficient to keep the peace, to check crime and to track offenders. Efforts are being made to procure efficiency. *Vide* appendix IV for expenditure, strength etc., of the Police. The ratio of Police to population is 1 to 310 and to that of area 1 to 2·90. Working of Police.

~~*Village Police.*~~

The village Police do not exist in every village, chowkidars (watchmen) are kept in all the villages of some parganas and in others in $\frac{3}{4}$, $\frac{1}{2}$, $\frac{1}{3}$, villages of the other parganas. Village Police.

These chowkidars do not get cash salaries, but they enjoy concessions of revenue for the land they cultivate. In some instances they pay nothing for their holdings, and in some instances they are paid by the ryots for watch and ward in accordance with the methods of settlement and the old usages of Rajputana. *Vide* appendices V, VI and VII.

Casting a glance on the number of police, there will be found an increase of 3 police men. The cause is that 3 places were vacant last year, which were filled up in the year under report.

Columns 7 and 9 of appendix V, show that out of 695 accused sent for trial, 275 were convicted giving a percentage of 39. Twenty two of the police have been rewarded by promotion or cash prizes for the satisfactory discharge of their duties and to encourage them further.

The proportion of literate to illiterate is 17 per cent. The time has not yet come to grant the police such salaries as will secure literateness for all ranks.

The number of offences during the year compared with the previous year is as 3 to 2. In 1311 Fasli the total number of offences was 34 while in the year under report it was 653. The number of accused however was a quarter less. The number of accused convicted was only 275, and thus it may be said in respect to the working of the Police that the decrease in the number of offenders was good. The increase in the offences came accounted for by the severity of the distress at the commencement of the present famine. Last year the number of accused sent up for trial was 5 per cent. but in the year under report it was 39 per cent.

Appendix VI.—Although the number of offences in the year as greater than that of the past year as shown in appendix V. Appendix I shows that the value of the stolen property was somewhat less than in the previous year. The percentage of recoveries was 35. Appendix II shows that 275 persons were punished. The greater number of those received sentences of less than 5 years imprisonment. Capital punishment was given in ²¹⁰ 46 cases. The outcome of this is that there was a decrease in heinous crimes.

CRIMINAL JUSTICE.

For this please see appendices VIII and IX. Appendix VIII shows that the number of offences during the year under report was nearly the same as in the past year, but the number of persons dealt with has decreased by 621. Out of the total number of 3,591 persons the cases of 322 were under disposal at the end of the year against 327 in the previous year.

The working of the Criminal Court appears to have been satisfactory. Appendix IX.—*Judicial*.—Out of 147 appeals 112 were disposed of in the year. Orders of the lower Courts were confirmed in 54, modified in 17 and reversed in 37. The result is satisfactory.

Council.—Out of the 13 criminal cases submitted for revision to the Council, 8 were disposed of and 5 remained outstanding at the end of the year.

CIVIL JUSTICE.

Vide Appendices X, XI, and XII. Appendix X. The difference between suits instituted and suits disposed of is not very great. The closing balance at the end of the year was 336 against 226 in the previous year. The average duration of cases was one month and 17 days.

Criminal
Justice.

Civil Justice.

Appendix XI.—The number of decrees executed was less than the number of applications for execution, but the value of the recoveries was greater by Rs. 10,578 than the total amount claimed. The cause of this was that a part of the balance of the last year was paid during the year under report. The working of this Court is satisfactory. There remained pending 569 suits to the value of Rs. 66,614.

Appendix XII. *Appellate Court* :—Number of appeals disposed of was 104 against 113 instituted. The confirmation of 63, out of 158, shows that less than half the orders of the Lower Courts were upheld ; 16 were revised, 6 were modified, 9 sent for trial and 10 compromised. During the year under report the average duration has risen to 131 days against 108 in the preceding years. The result of the Appellate Court work is satisfactory.

Council :—The number of civil appeals instituted and disposed of in the Council during the year were nearly equal. The average duration was a little over the last year's. The cause being that the Council were engaged in other business, and therefore less Judicial cases could be heard.

Extradition.

An agreement for the extradition of accused etc. with the Jaipur State in Rajputana is under consideration. Good results would accrue from such an agreement. Extradition.

Prisons.

Vide Appendix XIII.—The number of prisoners remaining at the end of the present year was 178 as against 205 in the preceding year. Prisons.

The number of prisoners admitted to the Jail was 479. The Jail at the capital is according to the standard plan of Jail in the United Provinces. It consists of two Barracks, one hospital and one workshop, besides subsidiary buildings. There is a separate barrack in the Jail for female prisoners. In the Parganas old houses are used as Jails and are sufficient for ordinary requirements. The daily average of prisoners in all the Jails during the year was 321.

The health of the prisoners was good. Only two prisoners died of fever. The conduct of the prisoners was good.

Registration.

Vide Appendices XIV. and XV.—The Registration Department did not make any satisfactory progress compared with the previous year and the year before that, it appears that the Department is in a stationary condition. The number of registrations last year was 175 and during the year under report was 155. Registration.

Appendix XV.—There appears an increase in the expenditure of Rs. 152 over the income of the Department.

Municipal administration.

Municipal administration.

Vide Appendix XVI. There is a Municipal Committee in Tonk City and similar committees are also in the principal towns of the State. The Tonk Municipality has the care of the conservancy and the Lighting of the streets. It consists of a Superintendent, a Mohtamim and 4 honorary members. The honorary Members were appointed during the year under report. The working of this committee is carried on under the guidance of the Financial Member. The expenses are met from the taxes levied from the grain dealers and shopkeepers which are sufficient to defray all Municipal charges. The Committee formed of headmen of the IMohallas for plague duty worked in conjunction with the Managing Members, the Honorary Members and the Superintendent of the Committee.

CHAPTER IV.
